

Together with one of our external managers, we take on unresolved succession situations in family owned SMEs.

CORE identifies suitable successor cases as well as the appropriate successor. Alternatively, external managers tend to approach CORE in order to acquire a solution to a succession problem.

CORE is not focused on specific industries.

Basic requirements for investment include:

- Headquartered in German-speaking countries (DACH)
- Marketable core business
- Annual turnover above € 5 million
- Decision has been made to use an external solution to solve succession problem

Looking for a successor? Would you like to acquire a successful company?

Please contact us, we ensure concise and qualified feedback. Your contacts are Frank Kosyk and Dr. Markus Ziegler.
